Eu Mountain Hack

Digital Project Marathon for the Sustainable Development in the Alpine Region
In un clima che cambia

MILAN
26-29 NOVEMBER 2019

HEAD SCHOOL ORGANIZER:
Liceo statale Scientifico e Classico "Ettore Majorana" - Desio

AGENDA

European Mountain Hack would be the very first European edition of a school hackathon dedicated to the mountain development and innovation, promoted by the Italian Ministry of Education, Universities and Research: an international competition for interdisciplinary young students aimed at generating solutions with a significant impact on the Alpine Region.

Participants will be invited to develop innovative high-impact ideas, projects, services and/or tools capable of meeting international requirements and presenting sustainable responses. The participants would be 80 and would be divided into 10 diverse teams of work.

This occasion would serve as a youth hub creating a connection between learning and doing, enabling young people to share information, promote the use of creativity and the importance of cooperation and teamwork, tackle the most important Alpine challenges. Keeping a strong focus on the importance of the youth's perspective in mind, the challenges and topics that the teams would be tackling are selected on the basis of the European Union Strategy of the Alpine Region Agenda.

The young minds would be asked to work in team and submit their final proposal presenting a video and/or a ppt presentation during a final pitch session. Proposals would be assessed by a multidisciplinary jury according to their creativity, practicality, social impact, innovation. The best proposal of each challenge would be awarded.
