

GUESS WHO

1. Now you are going to work in groups. Your group corresponds to your country.
We are going to play 6 matches. So each country will play one match.
I choose one country each time
2. The country chosen has to guess a person from another country chosen by the game leader. Marta Pisani is the game leader.
3. The country which is playing has to ask questions to the game leader in order to guess this mysterious person.
4. The game leader can answer only YES or NO
5. The country that guesses in a shorter time wins.
6. All the other players, not part of the playing group, have to switch on all the cameras.
The country asks a question to the game leader and depending on your answer (yes or no) you have to switch off or not your camera.

For example: the country asks "is this person wearing glasses?", if the game leader says yes, all the people not wearing glasses right now, have to switch off the camera. If the game leader says no, all the people wearing glasses right now, have to switch off the camera.

All right?

A GLITCH IN THE SYSTEM

We are going to play a very interesting game.

We have asked you to prepare two questions.

In this game you are going to answer these questions from your point of view.

I will show you some slides in which there are all the questions that the other countries want you to answer.

We would like you to choose one leader for your country, who will answer the questions. If this person can't answer, everybody of his/her Country can do it.

At the end, we will destroy some stereotypes and we will know each other better.

DRAWIZE (if we have time)

- Now we play a virtual game. I will send you a link.
Everybody has to click on the link in order to join the game.

In this game you have to guess what a person is drawing.

The website will choose a person who has to draw something.
And there are three options. The drawer has to choose one.
And draw it.

He has time to draw and then the others have to guess.

- There is a virtual keyboard you have to write the answer with.

The website will give points to the person who guesses first.
You have to write correctly your answer because otherwise
the game won't consider your answer.
The person who makes more points wins.

POST-IT (if we have time)

- You all start with your cameras switched off
- In this game you have to switch your cameras on if you feel that the question suits you.
- For example: switch on your cameras if you have glasses/if you have ever eaten pizza
(I have eaten pizza so I switch on my camera. If I am not, I keep it switched off)

- All right?
